

YASTEEL SEWNARAIN

Certified Tester

About me

ISTQB Certified Tester – Foundation Level (CTFL), with backend experience in Java, Spring Boot, SQL, and Golang. Background includes debugging APIs and applying engineering fundamentals to testing workflows. Expanding knowledge in automation frameworks and CI/CD practices to support reliable software quality.

Technical Skills

Languages & Frameworks

- Java & Spring Boot – Backend projects; foundation for automation workflows.
- Go (Golang) – CRUD scaffolding and API validation.
- SQL & PostgreSQL – Schema design, queries, and database interaction.
- JavaScript, HTML & CSS – Applied in personal projects.

Testing & QA Practices

- ISTQB Foundation Certificate – Knowledge of equivalence partitioning, boundary value analysis, and coverage metrics.
- RESTful API testing with Postman.
- UI automation with Selenium WebDriver (structured with Page Object Model).
- Test design focused on clarity, traceability, and maintainability.
- Git version control for reproducible environments.

Tools & Documentation

- Tactical logging for debugging and traceability.
- Documentation and README authoring for test cases and portfolio projects.

yasteel007sewnarain@gmail.com

Gauteng, South Africa

Language

- English (Native)
- Afrikaans (intermediate)
- Japanese (basic)
- Hindi (basic)

Expertise

- ISTQB CTFL – Test process, static testing, defect management
- Black-box: equivalence partitioning, boundary value, decision tables
- White-box: statement and branch coverage
- Selenium WebDriver automation (PyTest, Page Object Model)
- Test case design, Git workflow, debugging

Achievements

- Dux student
- 90% Matric average
- Prefect
- Public Speaking awards
- Multiple awards for highest mark in various subjects
- Represented Gauteng in chess.
- Live music performances
